AUTHORIZATION AND CARE OF MINOR

I hereby authorize Dr. Laura Nicholson to administer chiropractic care to my Son/Daughter.

Child's Name:_____

Parent's signature:_____Date:_____

Parent's printed name:_____

CONSENT TO CHIROPRACTIC CARE

I hereby voluntarily request and consent to the performance of the procedures described or referred to herein by Laura Nicholson, D.C. and/or any other chiropractic personnel who may be involved in the course of my treatment. Procedures may include the following: patient history, patient exam with orthopedic, neurological and chiropractic assessment, diagnostic x-rays, report of findings, chiropractic adjustments, heat and cold therapy, therapeutic massage and reassessment exams. I understand that Dr. Nicholson and/or personnel will rely on statements about me, my medical history, and other information in determining whether to perform the procedure or the course of treatment for the patient's condition and in recommending the procedure which has been explained.

I understand that with all health care delivery systems, including medicine, the practice of chiropractic may have potential complications. Possible risks may include post-treatment soreness, disc injury aggravation, joint, ligament, tendon or soft tissue injury and osseous tissue injury. As for a risk of stroke, according to the journal, *Spine* 2008; 33 (4S):S176-S183, patients are no more likely to suffer a stroke following a visit to a chiropractor than they would after stepping into their family doctor's office. The potential incidence is so rare that it is considered statistically insignificant. Precautions such as pre-treatment history, examination, and x-rays prior to care minimize such risks, as well as performing all treatment carefully. Please advise your doctor if you experience any soreness, discomfort, dizziness, headache, tiredness, nausea, vomiting, loss of balance, or any other side effects or symptoms.

I understand that chiropractic care involves the making of judgments based upon the facts known to the doctor at the time; that it is not reasonable to expect the doctor to be able to anticipate or explain all risks and complications; that an undesirable result does not necessarily indicate an error in judgment; that no guarantee as to results has been made to nor relied upon by me. I wish to rely on Dr. Nicholson to exercise judgment during the course of the procedure which she feels at the time, based upon the facts then known, is in my best interests. I have had an opportunity to discuss to my satisfaction with Dr. Nicholson, or other clinic personnel the nature and purpose of chiropractic adjustments and therapy procedures. By signing this form, I acknowledge that I have read or had this form read and/or explained to me and that I fully understand its contents.
